

NEFLIN

Continuing Education Committee Charge

The NEFLIN Continuing Education Committee will work in an advisory capacity with the Continuing Education Coordinator to develop a training program to meet the needs of member libraries.

The CE Committee will be actively involved in the direction of continuing education options such as workshops, webcasts, teleconference, online training, and content for the Multimedia Lending Library.

In addition to generating ideas and feedback essential to a thriving CE program, the Committee will promote these resources to enhance the professional knowledge of fellow members.
